

Will Haver

FOUNDING CEO, HAVER AI · BOSTON, MA

will@haverai.com · willhaver.com · linkedin.com/in/will-haver/ · haver.ai

SUMMARY

Founder and applied AI researcher. Building Haver AI — healthcare AI infrastructure and clinical tooling for accountable care organizations — out of Harvard Innovation Labs, in collaboration with MIT, Harvard Medical School, and NVIDIA. Prior: founded Haver LP, a quantitative hedge fund.

EXPERIENCE

Haver AI — Founding CEO

2024 — present

Leading development of Harrison-1, a healthcare LLM developed in collaboration with NVIDIA. Building governance, audit, and clinical decision tooling for ACOs and the providers working inside them. Resident venture at Harvard Innovation Labs.

Marbella AI — Advisor & Board Member

ongoing

Advising founder/CEO Dr. Jason Dou and the Marbella team on applied AI for the enterprise.

Haver LP — Founder

prior

Quantitative hedge fund focused on high-frequency trading and convertible debt arbitrage. Separate entity from Haver AI Inc.

RESEARCH & RECOGNITION

Predicting Preventable Hospital Admissions

2026

Co-author with Vikas Bommineni and Arthur Belkin. Pilot study across an ACO patient pool, in collaboration with MIT and Harvard Medical School. Presented at the MIT × Mass General Brigham AI Cures conference.

Harvard President's Innovation Challenge

2026

Semifinalist, Health & Life Sciences track. With co-founders Vikas Bommineni, Arthur Belkin, and Le Qi.

Columbia Global Sustainability Summit

2026
